Portfolio: sarareda7.github.io/portfolio | GitHub: github.com/sarareda7 | LinkedIn: linkedin.com/in/sara-reda-968425366

PROFESSIONAL SUMMARY

Self-motivated and detail-oriented Front-End Developer with a strong foundation in building responsive, interactive, and user-friendly web applications. Experienced in developing full-featured interfaces using modern web technologies including JavaScript (ES6+), React.js, HTML5, and CSS frameworks like Bootstrap. Passionate about translating UI/UX designs into clean code, solving logical problems, and committed to continuous self-development and learning.

TECHNICAL SKILLS

Frontend Core: HTML5, CSS3, JavaScript (ES6+), Responsive Web Design (RWD)

Frameworks & Libraries: React.js, Bootstrap 5

CSS & Layouts: Modern CSS (Flexbox, Grid), Media Queries, CSS Animations & Transitions

Tools & Version Control: Git, GitHub, GitHub Pages, VS Code, NPM

Development Practices: DOM Manipulation, Event Handling, Interactive UI Logic, Clean Code

FEATURED PROJECTS

E-Commerce Product Page

Live Demo: sarareda7.github.io/ecommerce-product | GitHub Code: github.com/sarareda7/ecommerce-product

- Built an interactive e-commerce product page featuring a dynamic image gallery, lightbox modal, and item quantity selection.
- Implemented interactive cart functionality and state updates using pure **JavaScript (ES6+)**.
- Styled modern UI elements and responsive layouts using **HTML5** and custom **CSS3**.

Multi-Step Interactive Form

Live Demo: sarareda7.github.io/multi-step-form | GitHub Code: github.com/sarareda7/multi-step-form

- Developed an interactive multi-step registration form with client-side field validation using **JavaScript**.
- Managed step-by-step navigation logic, user input state tracking, and summary calculation.
- Created a clean, mobile-responsive layout designed for smooth user experience across viewports.

Project Library Application

Live Demo: abolila-library.hqnrw.me | GitHub Code: github.com/sarareda7/project-library

- Designed and developed a showcase library application to systematically organize and present web projects.
- Applied advanced **DOM manipulation** and dynamic filtering capabilities using vanilla **JavaScript**.
- Ensured high performance, intuitive navigation, and clean structural styling with **HTML5 & CSS3**.

EDUCATION

Bachelor's Degree | Faculty of Education, Mansoura University

Self-Taught Front-End Developer through hands-on project implementation, algorithmic problem-solving, and continuous technical learning.
